PROFESSIONAL EXPERIENCE [4 Years]

ACCENTURE

Application Developer (Package App Development Analyst)

PUNE, MH

JAN 2025 - Present

FedEx Corporation: [Project Client]

Developed and improved Spring Boot-based microservices supporting document clearance, price quoting, and packaging workflows, with a focus on performance and reliability. Built REST APIs and event-driven flows using Amazon SNS/SQS, and worked with MySQL and Amazon RDS/Azure Cloud, including performance tuning. Implemented JWT/OAuth-based security and Redis caching to improve system efficiency, and integrated **agentic AI** workflows using LLM APIs to assist in debugging and log analysis.

Technologies: Java (8/11/17), Spring Boot, Spring (Core, Security), Microservices Architecture, AWS (SNS, SQS, RDS), Azure Cloud, MySQL, Redis, Docker, Kubernetes, Jenkins (CI/CD), OAuth2/JWT, GitHub Copilot, LLM APIs, Prompt Engineering (Agentic AI)

ROLES AND RESPONSIBILITIES

- Optimized CI/CD pipelines (Jenkins) to streamline builds and deployments.
- Redesigned legacy workflows into **Agentic AI**-driven automation using **LLM APIs** and **prompt engineering**, improving debugging and operational efficiency.
- Led migration to Amazon SNS/SQS (fan-out), enhancing scalability and reliability of real-time notifications.
- Improved performance by optimizing database queries and reducing redundant calls, lowering response times.
- Designed and developed scalable REST APIs, enabling efficient microservice communication via API Gateway; worked with Kafka for event streaming and Grafana for monitoring.
- Delivered feature enhancements and bug fixes, improving system stability and user experience, using AI-assisted tools where helpful.

INFOSYS LTD.

Senior Systems Engineer

Systems Engineer

PUNE, MH

2024-2025 (Jan)

(AUG) 2022-2023

Liberty Global: [Project Client]

Worked at Liberty Global on a converged broadband and entertainment platform supporting brands like Virgin Media O2 and Vodafone Ziggo. I was involved in developing the Horizon platform used for TV and streaming across the set-top Box and the Horizon Go app.

Built and improved backend services using Spring Boot, which helped reduce page load times by around **40%** and improved user retention by **~20%**.

Technologies: Spring Boot, Java, RESTful APIs, Microservices, PostgreSQL, Docker, Copilot

ROLES AND RESPONSIBILITIES

- Contributed to the development of a comprehensive entertainment platform featuring set-top boxes (Horizon Go and Ziggo) and a mobile application (Perseus), designed for European markets.
- Developed and maintained backend services using Spring Boot to deliver high-quality content comparable to Airtel Xtreme and Netflix.
- Implemented RESTful APIs to enable seamless integration and communication between set-top boxes, the mobile application, and backend services.
- I applied microservices architecture to improve the platform's scalability, maintainability, and deployment efficiency.
- Managed databases using PostgreSQL, focusing on data storage optimization, efficient retrieval, and performance tuning.
- Containerized applications with Docker to enhance the efficiency of development, testing, and deployment processes.

CERTIFICATION & ACHIEVEMENTS

- **AWS Certified Cloud Practitioner** (Validation Number: **DHM035DKX1B412C1**)
 - Acquired an in-depth understanding of AWS Cloud Practitioner concepts, including cloud architecture, security, and cost management.
- **GitHub Copilot Certified** (Validation Number: **13D6178B14255A0A**)
 - Proficient in AI-assisted development, including effective prompt design to improve code generation, debugging, and development efficiency.

SKILLS

- **Languages:** Java
- **Frameworks:** Spring, Spring Boot, Hibernate (JPA)
- **AI & Automation:** Agentic AI, LLM APIs, Prompt Engineering
- **Architectures:** DSA, Spring MVC
- **DevOps:** Docker, Kubernetes, Jenkins (CI/CD)
- **Cloud Platforms:** Azure, AWS
- **Databases:** MySQL, PostgreSQL, PL/SQL, MongoDB
- **Frontend:** React, HTML, CSS, JavaScript
- **Tools:** Kibana, Kafka, Grafana, Dynatrace, Git, GitHub

EDUCATION

GCET, CVM UNIVERSITY
Bachelor of Technology; Information Technology

ANAND, GUJARAT
2018-2022
